

## Joshua Agterberg

October 2018

(414) 243-9337

[jagterb1@jhu.edu](mailto:jagterb1@jhu.edu)

<https://jagterberg.github.io>

### Education

- 2017-Present    Johns Hopkins University  
Master of Science in Engineering in Applied Mathematics and Statistics  
PhD in Applied Mathematics and Statistics (Beginning January 2019)  
Advised by Professor Carey Priebe  
GPA: 4.0/4.0
- 2013 – 2017    University of Wisconsin-Madison  
Bachelor of Business Administration, Major in Actuarial Science and Mathematics  
Advised by Professor Marjorie Rosenberg  
GPA: 3.73/4.0, Actuarial Science Major GPA: 4.0/4.0  
Graduated with Distinction

### Honors and Awards

- Spring 2017    DW Simpson Scholarship  
Fall 2016    Bicknell Scholarship  
2013-2014    Arthur C. Nielsen Scholarship  
2013    Directly Admitted to Wisconsin School of Business  
2014-2017    Dean's list (>3.8 Semester GPA – achieved five separate times)

### Research Activities

- 2018-Present    Generalized Random Dot Product Graphs  
  
Investigating statistical properties of the Generalized Random Dot Product Graph with Professor Carey Priebe.
- 2018-Present    Vertex Nomination  
  
Investigating the statistical properties of Vertex Nomination with Professors Vince Lyzinski and Carey Priebe.
- 2018    DARPA D3M Summer workshop  
  
Implemented Python code for graph-related problems for the D3M (Data-Driven Discovery of Models) summer workshop in Arlington, VA, under the direction of Professors Youngser Park and Carey Priebe. Responsibilities included updating primitives (individual algorithms), editing pipelines (collections of algorithms), and submitting results for formal evaluation.
- 2017-Present    Graph Matching  
  
Writing R code for splrMatrix object (a sparse plus low-rank matrix) for faster calculations and cheaper storage of centered adjacency matrices under direction of Professors Daniel Sussman and Carey Priebe.

- 2015-Present    **Clustering in Insurance**
- Examine the effectiveness of K-medoids (PAM) algorithm on 2010 NHIS survey dataset under direction of Professor Margie Rosenberg.
- Implementing weighted Goodall's dissimilarity index in R and Rcpp to measure difference between observations when data are categorical.
- 2017-Present    **catDist R Package**
- Personal project implementing several different categorical dissimilarity measures for use with K-Medoids and spectral clustering methods.

## Professional Experience

- 2018-Present    **Research Assistant**, Johns Hopkins University, Baltimore, MD
- Research assistant to Professor Carey Priebe in the Applied Mathematics and Statistics Department. Also working with Professors Daniel Sussman of Boston University, Vince Lyzinski of the University of Massachusetts-Amherst, and Youngser Park at Johns Hopkins.
- 2017              **Analytics Intern**, CNA Financial, Chicago, IL
- Examined the predictive value of FDA data on losses for products and professional liability for medical devices.
- Cleaned and edited FDA data to merge with internal data and Dun and Bradstreet data. Modeled losses in R using a GLM with Tweedie family and log-link to account for zero-inflation.
- Created univariate with-without plots to examine effect of specific FDA variables on losses
- 2016              **Actuarial Intern**, CNA Financial, Chicago, IL
- Developed a Markov Chain model for predicting the probability of payment for insurance claims given the current legal state.
- Generated piecewise linear splines to implement time dependence of Markov Model.
- 2013              **Actuarial Intern**, CUNA Mutual Group, Madison, WI
- Created spreadsheets from scratch to replicate GAAP and Statutory reserves results from PolySystems for equity-indexed annuity policies as a control for auditors.
- Analyzed mortality experience study data in Excel by comparing actual to expected ratios with the proposed new table and helped management determine to use new table across all annuity products.

## Teaching

*Johns Hopkins University (Applied Mathematics and Statistics)*

Fall 2018      Teaching Assistant for 553.730 Statistical Theory for Professor Carey Priebe  
Summer 2018    Instructor for Financial Mathematics Master's Program Statistics Review

*University of Wisconsin-Madison (Wisconsin School of Business, Risk and Insurance)*

Spring 2017      Grader for ActSci 655 Health Analytics for Professor Margie Rosenberg  
Fall 2016        Grader for ActSci 651 Life Contingencies II for Professor Paul Johnson  
Spring 2016      Grader for ActSci 650 Life Contingencies I for Professor Margie Rosenberg

*University of Wisconsin-Madison (School of Music)*

Spring 2015-Spring 2017, Private Piano Instructor

## Skills and Qualifications

Proficient in R, Java, Python, Linux, Git, C++ (Rcpp), Matlab, LaTeX, Microsoft Excel, and VBA

Actuarial exams passed: Exam P (July 2014); Exam FM (February 2015), Exam MFE (July 2016); Fulfilled Econ, Finance, and Statistics VEE
